### CIPA ATV BAR-END MIRROR

The Bar-End ATV Mirror mounting feature offers the ability to mount this mirror quickly and easily into the handlebar, keeping it out of the way and free from interfering with hand movement. Universal mounting works with most ATVs. Dimensions: Insertion knob is 5/8 of an inch in diameter, mirror head sits 3 inches away from handlebar. Overall mirror length is 10 inches. The mirror head features a “tear-drop” shape, measuring 6 inches long by 3 inches high (at its largest point). The viewing surface measures 5 inches long by 3 inches high. (All measurements are approximate.) Mirror comes with a vibration-free convex safety lens to provide both safety and wide angle viewing. The mirror head adjusts in all directions using a ball and socket mount between the mirror head and mirror arm, arm can also be adjusted for optimal viewing using a Phillips head screwdriver (not included). The Bar-End ATV Mirror can be used on snowmobiles, jet skis, motor-cross bikes, 4 wheelers, or bicycles.

### CIPA UTV REARVIEW MIRROR

The UTV Rearview Mirror clamps around UTV roll-cage bar for vision when and where you need it. Large 10.25 x 3.75 inch adjustable mirror head provides visibility without reducing flexibility. Convex acrylic safety lens offers wide angle viewing and reduces blind spots, sturdy aluminum bracket with ball and socket adjustment designed to reduce vibration. Mirror fits roll-cage bars 1.75 inches in diameter.

11170    UTV Rearview Mirror

\$27

### CIPA UTV SIDE MIRRORS

The UTV Side Mirror clamps onto the side of UTV roll cage bar. Large adjustable glass head provides crisp and clear visibility, and OEM grade 2mm flat chrome lens ensures a high quality reflective surface in any weather condition for many years to come. The nylon fiber arm and aluminum hardware ensure a lightweight design, while the sturdy aluminum metal bracket and ball and socket adjustment design reduce vibration and keep the mirror where it belongs—even on the most rigorous of trails. Fits roll cage bars from 1.75 inches in diameter. Each kit contains one side mirror assembly, aluminum bar clamp, machined mount, two lock washers and aluminum adjusting nut.

### CIPA DELUXE UTV REARVIEW MIRROR

The Deluxe UTV Rearview Mirror clamps around the center of UTV roll cage bar. Large adjustable mirror head provides superior visibility, while the convex OEM grade glass design offers optimal wide angle viewing, with a high quality reflective surface in any weather condition. Sturdy aluminum bracket and ball and socket adjustment design reduce vibration and keeps the mirror in place. The Deluxe UTV Rearview Mirror fits roll-cage bars 1.5 and 1.75 inches in diameter. *Please note: This mirror is not compatible with hard-top UTVs.*

### CIPA GOLF CART CLAMP ON SIDE VIEW MIRRORS

Clamp-On Side View Mirrors provide excellent side and rearview vision. Mirrors fold to prevent breakage. Ball and socket joint facilitates a broad range of viewing angles. High impact ABS housing construction increases durability. Convex, shatterproof safety glass increases safety while providing a wider viewing range and image stabilization. Fits wide range of ATV's and Golf Carts.

### CIPA HANDLEBAR GRIP-MOUNT REARVIEW MIRROR

Handlebar Grip-Mount Mirrors will enable you to always know what is going on behind you, making your vehicle much safer and easier to maneuver. Made from high quality heavy-duty polyethylene plastic, these mirrors do not interfere in any way with the handle bar grip. Featuring a vibration free convex safety lens and extending 10 inches from the handle bar. The Handlebar Grip-Mount is fully adjustable, easy to install on either side of the handlebar, and the mirror swivels for ease of adjustment. The Handlebar Grip-Mount Mirror offers a truly universal mount for ATVs and UTVs. Velcro strap wraps around the end of the handlebar for quick and easy mounting on ATVs, dirt bikes, snowmobiles, bicycles, or just about anything with a handlebar up to a 1.25 in diameter. Mirror head 2.5" high x 3.75" long/overall mirror length 8.5".
